

## From Bismillah to Breakthroughs

---

### Money Markets – Intermediate Level

#### **Purpose:**

This course delves into the structure and function of money markets, enhancing participants' ability to navigate short-term financial instruments and liquidity strategies. It covers trading practices, risk considerations, and market analysis. Participants will learn to develop strategies for managing liquidity, optimizing returns, and minimizing risk in money market operations. Ideal for finance professionals seeking to refine their skills in short-term asset management.

#### **Learning Outcomes:**

After completing this course, participants will be able to:

- Analyze key money market instruments and their characteristics
- Develop and implement trading strategies in money markets
- Apply risk management techniques to money market operations
- Optimize liquidity and short-term investment decisions

---
